

## Datasheet for ABIN2533381 FGF15 ELISA Kit

[Go to Product page](#)

### Overview

Quantity: 96 tests

Target: FGF15

Reactivity: Mouse

Method Type: Competition ELISA

Detection Range: 12.5 pg/mL - 200 pg/mL

Minimum Detection Limit: 12.5 pg/mL

Application: ELISA

### Product Details

**Purpose:** Mouse FGF15 ELISA Kit is a sandwich ELISA kit for use with Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Fibroblast Growth Factor 15 (FGF15). No significant cross-reactivity or interference between Fibroblast Growth Factor 15 (FGF15) and analogues was observed. Please note that this kit is also provided as a mini ELISA, where less reagents would be provided for a more affordable option. Please contact us at [info@abbexa.com](mailto:info@abbexa.com) for more information.

**Sample Type:** Cell Culture Supernatant, Cell Lysate, Plasma, Serum, Tissue Homogenate

**Analytical Method:** Quantitative

**Detection Method:** Colorimetric

**Specificity:** This assay has high sensitivity and excellent specificity for detection of Fibroblast Growth Factor 15 (FGF15).

## Product Details

---

Sensitivity: < 5.1 pg/mL

## Target Details

---

Target: FGF15

Abstract: [FGF15 Products](#)

## Application Details

---

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.  
Standard Form: Lyophilized

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. - minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate: Pre-coated

Restrictions: For Research Use only

## Handling

---

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
