

## Datasheet for ABIN2533775

### GHRH ELISA Kit

[Go to Product page](#)

#### Overview

Quantity:	96 tests
Target:	GHRH
Reactivity:	Pig
Method Type:	Sandwich ELISA
Detection Range:	3 pg/mL - 200 pg/mL
Minimum Detection Limit:	3 pg/mL
Application:	ELISA

#### Product Details

Purpose:	Pig GHRH ELISA Kit is an ELISA kit against Pig GHRH.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	0.6 pg/mL
Characteristics:	Pig GHRH ELISA Kit is an ELISA kit against Pig GHRH.

#### Target Details

Target:	GHRH
Alternative Name:	GHRH ( <a href="#">GHRH Products</a> )
Pathways:	<a href="#">Hormone Transport</a> , <a href="#">Hormone Activity</a> , <a href="#">cAMP Metabolic Process</a>

Application Details

Application Notes:	<p>Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.</p> <p>Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.</p> <p>Standard Form: Liquid</p> <p>Standard Concentration: 270 pg/mL</p>
--------------------	---

Comment:	<p>The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.</p>

Plate:	Pre-coated
--------	------------

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
