

Datasheet for ABIN2534104

GZMK ELISA Kit

Overview

Quantity:	96 tests
Target:	GZMK
Reactivity:	Mouse
Method Type:	Sandwich ELISA
Detection Range:	15.62 pg/mL - 1000 pg/mL
Minimum Detection Limit:	15.62 pg/mL
Application:	ELISA
Product Details	
Purpose:	Mouse Granzyme K ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other
Purpose:	Mouse Granzyme K ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of

Sample Type:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Granzyme K (GZMK) No significant cross-reactivity or interference between Granzyme K (GZMK) and analogues was observed. Plasma, Serum
Sample Type: Analytical Method:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Granzyme K (GZMK) No significant cross-reactivity or interference between Granzyme K (GZMK) and analogues was observed. Plasma, Serum Quantitative

Target Details

Target:	GZMK
Alternative Name:	Granzyme K (GZMK) (GZMK Products)
Application Details	
Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user. Standard Form: Lyophilized
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only
Handling	
Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
