

Datasheet for ABIN2534206 H2AFV ELISA Kit

[Go to Product page](#)

Overview

| | |
|--------------------------|------------------------|
| Quantity: | 96 tests |
| Target: | H2AFV |
| Reactivity: | Human |
| Method Type: | Sandwich ELISA |
| Detection Range: | 1.56 ng/mL - 100 ng/mL |
| Minimum Detection Limit: | 1.56 ng/mL |
| Application: | ELISA |

Product Details

| | |
|--------------------|---|
| Purpose: | <p>Human H2AFV ELISA Kit is a sandwich ELISA kit for use with Tissue homogenates and other biological fluids. This assay has high sensitivity and excellent specificity for detection of H2A Histone Family, Member V (H2AFV)</p> <p>No significant cross-reactivity or interference between H2A Histone Family, Member V (H2AFV) and analogues was observed.</p> |
| Sample Type: | Tissue Homogenate |
| Analytical Method: | Quantitative |
| Detection Method: | Colorimetric |
| Specificity: | This assay has high sensitivity and excellent specificity for detection of H2A Histone Family, Member V (H2AFV) |
| Sensitivity: | < 0.59 ng/mL |

Target Details

Target: H2AFV

Abstract: [H2AFV Products](#)

Application Details

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.
Standard Form: Lyophilized

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. - minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
