

Datasheet for ABIN2537202 NCF1 ELISA Kit

Overview

96 tests NCF1
NCF1
Human
Sandwich ELISA
0.312 ng/mL - 20 ng/mL
0.312 ng/mL
ELISA
 Human NCF1 ELISA Kit is a sandwich ELISA kit for use with Tissue homogenates, cell lysates and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Neutrophil Cytosolic Factor 1 (NCF1) No significant cross-reactivity or interference between Neutrophil Cytosolic Factor 1 (NCF1) and analogues was observed.
Cell Lysate, Tissue Homogenate
Quantitative
Colorimetric
This assay has high sensitivity and excellent specificity for detection of Neutrophil Cytosolic Factor 1 (NCF1)
< 0.113 ng/mL

Target Details	
Target:	NCF1
Alternative Name:	Neutrophil Cytosolic Factor 1 (NCF1) (NCF1 Products)
Pathways:	PI3K-Akt Signaling
Application Details	
Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user. Standard Form: Lyophilized
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only
Handling	
Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
