

Datasheet for ABIN2537383

OPTN ELISA Kit

Overview

Quantity:	96 tests
Target:	OPTN
Reactivity:	Mouse
Method Type:	Sandwich ELISA
Detection Range:	0.156 ng/mL - 10 ng/mL
Minimum Detection Limit:	0.156 ng/mL
Application:	ELISA
Product Details	
Purpose:	Mouse Optineurin ELISA Kit is a sandwich ELISA kit for use with Tissue homogenates and other
Purpose:	Mouse Optineurin ELISA Kit is a sandwich ELISA kit for use with Tissue homogenates and other biological fluids. This assay has high sensitivity and excellent specificity for detection of

Sample Type:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Optineurin (OPTN) No significant cross-reactivity or interference between Optineurin (OPTN) and analogues was observed. Tissue Homogenate
Sample Type: Analytical Method:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Optineurin (OPTN) No significant cross-reactivity or interference between Optineurin (OPTN) and analogues was observed. Tissue Homogenate Quantitative

Target Details

Target Details		
Target:	OPTN	
Abstract:	OPTN Products	
Pathways:	M Phase	
Application Details		
Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user. Standard Form: Lyophilized	
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.	
Plate:	Pre-coated	
Restrictions:	For Research Use only	

Handling

Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
