

Datasheet for ABIN2537712 **PAM ELISA Kit**

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	PAM
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	31.25 pg/mL - 2000 pg/mL
Minimum Detection Limit:	31.25 pg/mL
Application:	ELISA

Product Details

Purpose:	<p>Human PAM ELISA Kit is a sandwich ELISA kit for use with Serum, plasma, cerebrospinal fluid and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Peptidylglycine Alpha Amidating Monooxygenase (PAM)</p> <p>No significant cross-reactivity or interference between Peptidylglycine Alpha Amidating Monooxygenase (PAM) and analogues was observed.</p>
Sample Type:	Cerebrospinal Fluid, Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Specificity:	This assay has high sensitivity and excellent specificity for detection of Peptidylglycine Alpha Amidating Monooxygenase (PAM)
Sensitivity:	< 13.9 pg/mL

Target Details

Target: PAM

Alternative Name: Peptidylglycine alpha Amidating Monooxygenase (PAM) ([PAM Products](#))

Application Details

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.
Standard Form: Lyophilized

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. - minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
