

## Datasheet for ABIN2538696

### Rotavirus Antigen ELISA Kit

[Go to Product page](#)

#### Overview

Quantity:	96 tests
Target:	Rotavirus Antigen (RV Ag)
Reactivity:	Human
Application:	ELISA

#### Product Details

Purpose:	Human Rotavirus Antigen ELISA Kit is an ELISA kit against Human Rotavirus Antigen.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Analytical Method:	Qualitative
Detection Method:	Colorimetric

#### Target Details

Target:	Rotavirus Antigen (RV Ag)
Alternative Name:	Rotavirus Antigen ( <a href="#">RV Ag Products</a> )
Target Type:	Viral Protein

#### Application Details

Application Notes:	<p>Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled.</p> <p>It is also strongly suggested that the whole assay is performed by the same user throughout.</p>
--------------------	---

Application Details

	Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
