Datasheet for ABIN2538810 serine Dehydratase ELISA Kit

Overview

Quantity:	96 tests
Target:	serine Dehydratase (SDS)
Reactivity:	Mouse
Detection Range:	0.3 ng/mL - 20 ng/mL
Minimum Detection Limit:	0.3 ng/mL
Application:	ELISA

Product Details

Purpose:	Mouse SDH ELISA Kit is an ELISA kit against Mouse SDH.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	0.05 ng/mL
Characteristics:	Mouse SDH ELISA Kit is an ELISA kit against Mouse SDH.

Target Details

Target:	serine Dehydratase (SDS)
Alternative Name:	SDH (SDS Products)
Pathways:	Ribonucleoprotein Complex Subunit Organization , Ribosome Assembly

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
