

Datasheet for ABIN2539173

SPON2 ELISA Kit

Overview

Quantity: 96 tests Target: SPON2 Reactivity: Rat Method Type: Sandwich ELISA Detection Range: 0.156 ng/mL - 10 ng/mL Minimum Detection Limit: 0.156 ng/mL Application: ELISA Product Details Purpose: Rat Spondin 2 ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed. Sample Type: Plasma, Serum Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) Sensitivity: < 0.068 ng/mL		
Reactivity: Rat Method Type: Sandwich ELISA Detection Range: 0.156 ng/mL - 10 ng/mL Minimum Detection Limit: 0.156 ng/mL Application: ELISA Product Details Purpose: Rat Spondin 2 ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues we observed. Sample Type: Plasma, Serum Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	Quantity:	96 tests
Method Type: Sandwich ELISA Detection Range: 0.156 ng/mL - 10 ng/mL Minimum Detection Limit: 0.156 ng/mL Application: ELISA Product Details Purpose: Rat Spondin 2 ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues war observed. Sample Type: Plasma, Serum Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	Target:	SPON2
Detection Range: 0.156 ng/mL · 10 ng/mL Minimum Detection Limit: 0.156 ng/mL Application: ELISA Product Details Purpose: Rat Spondin 2 ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed. Sample Type: Plasma, Serum Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	Reactivity:	Rat
Minimum Detection Limit: O.156 ng/mL Application: ELISA Product Details Purpose: Rat Spondin 2 ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues war observed. Sample Type: Plasma, Serum Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	Method Type:	Sandwich ELISA
Application: ELISA Product Details Purpose: Rat Spondin 2 ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed. Sample Type: Plasma, Serum Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	Detection Range:	0.156 ng/mL - 10 ng/mL
Purpose: Rat Spondin 2 ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed. Sample Type: Plasma, Serum Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	Minimum Detection Limit:	0.156 ng/mL
Purpose: Rat Spondin 2 ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed. Sample Type: Plasma, Serum Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	Application:	ELISA
biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed. Sample Type: Plasma, Serum Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	Product Details	
Analytical Method: Quantitative Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)		
Detection Method: Colorimetric Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	Purpose:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was
Specificity: This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2)	·	biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed.
	Sample Type:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed. Plasma, Serum
Sensitivity: < 0.068 ng/mL	Sample Type: Analytical Method:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed. Plasma, Serum Quantitative
	Sample Type: Analytical Method: Detection Method:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Spondin 2 (SPON2) No significant cross-reactivity or interference between Spondin 2 (SPON2) and analogues was observed. Plasma, Serum Quantitative Colorimetric

Target Details

Target:	SPON2
Abstract:	SPON2 Products
Application Details	
Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user. Standard Form: Lyophilized
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only
Handling	
Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
