Target Details

Target:	SRD5A2	
Alternative Name:	Steroid 5 alpha Reductase 2 (SRD5a2) (SRD5A2 Products)	
Pathways:	Metabolism of Steroid Hormones and Vitamin D, Steroid Hormone Biosynthesis	
Application Details		
Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less	
	than 5 % within the expiration date under appropriate storage conditions. To minimize	
	performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.	
	Recommended dilutions: Optimal dilutions/concentrations should be determined by the end	
	user.	
	Standard Form: Lyophilized
