Datasheet for ABIN2539226 Streptokinase ELISA Kit

Overview

Quantity:	96 tests
Target:	Streptokinase
Reactivity:	Human
Application:	ELISA

Product Details

Purpose:	Human Streptokinase ELISA Kit is an ELISA kit against Human Streptokinase.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Detection Method:	Colorimetric
Characteristics:	Human Streptokinase ELISA Kit is an ELISA kit against Human Streptokinase.

Target Details

Target:	Streptokinase
Abstract:	Streptokinase Products

Application Details

Application Notes:	<p>Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.</p> <p>Recommended dilutions: Optimal dilutions/concentrations should be determined by the end</p>

Application Details

user.

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
