**WNV IgM ELISA Kit**

### Overview

Quantity:	96 tests
Target:	WNV IgM
Reactivity:	Human
Method Type:	Indirect ELISA
Application:	ELISA

### Product Details

Purpose:	Human West nile virus IgM ELISA Kit is an ELISA kit against Human West nile virus IgM.
Sample Type:	Plasma, Serum
Analytical Method:	Qualitative
Detection Method:	Colorimetric
Characteristics:	Human West nile virus IgM ELISA Kit is an ELISA kit against Human West nile virus IgM.

### Target Details

Target:	WNV IgM
Alternative Name:	West Nile Virus IgM ( <a href="#">WNV IgM Products</a> )
Target Type:	Antibody, Antibody

### Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less
--------------------	---

## Application Details

---

than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Liquid

---

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

---

Plate: Pre-coated

---

Restrictions: For Research Use only

## Handling

---

Storage: 4 °C/-20 °C

---

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

Expiry Date: 6 months
