Target Details

Target:	WFS1
Alternative Name:	Wolfram Syndrome Protein 1 (WFS1) (WFS1 Products)
Pathways:	Sensory Perception of Sound , Carbohydrate Homeostasis , ER-Nucleus Signaling , Negative Regulation of intrinsic apoptotic Signaling , SARS-CoV-2 Protein Interactome

Application Details

Application Notes:	<p>Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.</p> <p>Standard Form: Lyophilized</p>
