Product Details

Purpose:	Mouse XDH ELISA Kit is a sandwich ELISA kit for use with Serum, plasma, tissue homogenates, breast milk and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Xanthine Dehydrogenase (XDH) No significant cross-reactivity or interference between Xanthine Dehydrogenase (XDH) and analogues was observed.
Sample Type:	Milk, Plasma, Serum, Tissue Homogenate
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Specificity:	This assay has high sensitivity and excellent specificity for detection of Xanthine Dehydrogenase (XDH)
Sensitivity:	< 12.1 pg/mL

Target Details

Target:	XDH
Abstract:	XDH Products
Pathways:	Positive Regulation of Endopeptidase Activity

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user. Standard Form: Lyophilized
