Specificity:	This assay has high sensitivity and excellent specificity for detection of Actin Related Protein 2/3 Complex Subunit 2 (ARPC2)
Sensitivity:	< 0.068 ng/mL

Target Details

Target:	ARPC2
Alternative Name:	Actin Related Protein 2/3 Complex Subunit 2 (ARPC2) (ARPC2 Products)
Pathways:	RTK Signaling , Regulation of Actin Filament Polymerization

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user. Standard Form: Lyophilized
