

## Datasheet for ABIN2541062 **ALDOB ELISA Kit**

Overview

Quantity:	96 tests
Target:	ALDOB
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	0.25 ng/mL - 16 ng/mL
Minimum Detection Limit:	0.25 ng/mL
Application:	ELISA
Product Details	
Purpose:	Human Aldolase B ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other
Purpose:	Human Aldolase B ELISA Kit is a sandwich ELISA kit for use with Serum, plasma and other biological fluids. This assay has high sensitivity and excellent specificity for detection of
Purpose:	
Purpose:	biological fluids. This assay has high sensitivity and excellent specificity for detection of
Purpose: Sample Type:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Aldolase B
	biological fluids. This assay has high sensitivity and excellent specificity for detection of Aldolase B No significant cross-reactivity or interference between Aldolase B and analogues was observed.
Sample Type:	biological fluids. This assay has high sensitivity and excellent specificity for detection of Aldolase B No significant cross-reactivity or interference between Aldolase B and analogues was observed. Plasma, Serum

Target Details	
Target:	ALDOB
Alternative Name:	Aldolase B, Fructose Bisphosphate (ALDOB) (ALDOB Products)
Gene ID:	229
UniProt:	P05062
Application Details	
Application Notes:	<ul> <li>Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled.</li> <li>It is also strongly suggested that the whole assay is performed by the same user throughout.</li> <li>Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.</li> <li>Standard Form: Lyophilized</li> </ul>
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only
Handling	
Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
