Datasheet for ABIN2541447 EMA IgA ELISA Kit

Overview

Quantity:	96 tests
Target:	EMA IgA
Reactivity:	Human
Application:	ELISA

Product Details

Purpose:	Human Anti-Endomysial Antibody IgA ELISA Kit is an ELISA kit against Human Anti-Endomysial Antibody IgA.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Analytical Method:	Qualitative
Detection Method:	Colorimetric
Characteristics:	Human Anti-Endomysial Antibody IgA ELISA Kit is an ELISA kit against Human Anti-Endomysial Antibody IgA.

Target Details

Target:	EMA IgA
Alternative Name:	Anti-Endomysial Antibody IgA (EMA IgA Products)
Target Type:	Antibody

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less
--------------------	---

Application Details

than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
