Apo-B100 ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	Apo-B100
Reactivity:	Rabbit
Detection Range:	3.3 ng/mL - 200 ng/mL
Minimum Detection Limit:	3.3 ng/mL
Application:	ELISA

Product Details

Purpose:	Rabbit Apoprotein B100 ELISA Kit is an ELISA kit against Rabbit Apoprotein B100.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	0.8 ng/mL
Characteristics:	Rabbit Apoprotein B100 ELISA Kit is an ELISA kit against Rabbit Apoprotein B100.

Target Details

Target:	Apo-B100
Alternative Name:	Apoprotein B100 (Apo-B100 Products)

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
