

Datasheet for ABIN2542207 **BCKDK ELISA Kit**

[Go to Product page](#)

Overview

Quantity: 96 tests

Target: BCKDK

Reactivity: Rat

Method Type: Sandwich ELISA

Detection Range: 3.12 ng/mL - 200 ng/mL

Minimum Detection Limit: 3.12 ng/mL

Application: ELISA

Product Details

Purpose: Rat BCKDK ELISA Kit is a sandwich ELISA kit for use with Tissue homogenates and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Branched Chain Alpha-Ketoacid Dehydrogenase Kinase (BCKDK)
No significant cross-reactivity or interference between Branched Chain Alpha-Ketoacid Dehydrogenase Kinase (BCKDK) and analogues was observed.

Sample Type: Tissue Homogenate

Analytical Method: Quantitative

Detection Method: Colorimetric

Specificity: This assay has high sensitivity and excellent specificity for detection of Branched Chain Alpha-Ketoacid Dehydrogenase Kinase (BCKDK)

Sensitivity: < 1.29 ng/mL

Target Details

Target:	BCKDK
Alternative Name:	Branched Chain alpha-Ketoacid Dehydrogenase Kinase (BCKDK) (BCKDK Products)
Pathways:	SARS-CoV-2 Protein Interactome

Application Details

Application Notes:	<p>Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.</p> <p>Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.</p> <p>Standard Form: Lyophilized</p>
Comment:	<p>The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. - minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.</p>
Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
