Candida albicans ELISA Kit

Overview

Quantity:	96 tests
Target:	Candida albicans
Reactivity:	Human
Application:	ELISA

Product Details

Purpose:	Human Candida Albicans ELISA Kit is an ELISA kit against Human Candida Albicans.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Detection Method:	Colorimetric
Characteristics:	Human Candida Albicans ELISA Kit is an ELISA kit against Human Candida Albicans.

Target Details

Target:	Candida albicans
Abstract:	Candida albicans Products
Target Type:	Species

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less
	than 5 % within the expiration date under appropriate storage conditions. To minimize
	performance fluctuations, operation procedures and lab conditions should be strictly controlled.
	It is also strongly suggested that the whole assay is performed by the same user throughout.

Application Details

	Recommended dilutions: Optimal dilutions/concentrations should be determined by the end
	user.
Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5%
	within the expiration date under appropriate storage conditions. To minimize performance
	fluctuations, operation procedures and lab conditions should be strictly controlled. It is also
	strongly suggested that the whole assay is performed by the same user throughout.
Plate:	Pre-coated
Restrictions:	For Research Use only
Handling	
Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
