

Datasheet for ABIN2542947 hCG ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	hCG
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	0.781 ng/mL - 50 ng/mL
Minimum Detection Limit:	0.781 ng/mL
Application:	ELISA

Product Details

Purpose:	<p>Human Chorionic Gonadotropin ELISA Kit is a sandwich ELISA kit for use with Serum, plasma, urine, cell culture supernates and other biological fluids. This assay has high sensitivity and excellent specificity for detection of Chorionic Gonadotropin</p> <p>No significant cross-reactivity or interference between Chorionic Gonadotropin and analogues was observed.</p>
Sample Type:	Cell Culture Supernatant, Plasma, Serum, Urine
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Specificity:	This assay has high sensitivity and excellent specificity for detection of Chorionic Gonadotropin (CG)
Sensitivity:	< 0.32 ng/mL

Target Details

Target:	hCG
Alternative Name:	Chorionic Gonadotropin (CG) (hCG Products)
Target Type:	Hormone

Application Details

Application Notes:	<p>Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.</p> <p>Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.</p> <p>Standard Form: Lyophilized</p>
Comment:	<p>The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.</p>
Plate:	Pre-coated
Restrictions:	For Research Use only

Handling

Storage:	4 °C/-20 °C
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
Expiry Date:	6 months
