Datasheet for ABIN2543015 **Clostridium Perfringens ELISA Kit**

Overview

Quantity:	96 tests
Target:	Clostridium Perfringens
Reactivity:	Chicken
Application:	ELISA

Product Details

Purpose:	Chicken C. perfringens ELISA Kit is an ELISA kit against Clostridium perfringens.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Detection Method:	Colorimetric
Characteristics:	Chicken Clostridium Perfringens ELISA Kit is an ELISA kit against Chicken Clostridium Perfringens.

Target Details

Target:	Clostridium Perfringens
Abstract:	Clostridium Perfringens Products
Target Type:	Bacteria

Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled.
--------------------	--

Application Details

It is also strongly suggested that the whole assay is performed by the same user throughout.
Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
