## Datasheet for ABIN2543997 **EBV ELISA Kit**

### Overview

Quantity:	96 tests
Target:	EBV
Reactivity:	Human
Method Type:	Sandwich ELISA
Application:	ELISA

### Product Details

Purpose:	Human EBV ELISA Kit is an ELISA kit against Human EBV.
Sample Type:	Cell Culture Supernatant, Plasma, Serum
Analytical Method:	Qualitative
Detection Method:	Colorimetric
Characteristics:	Human EBV ELISA Kit is an ELISA kit against Human EBV.

### Target Details

Target:	EBV
Alternative Name:	EBV ( <a href="#">EBV Products</a> )
Target Type:	Virus

### Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less

## Application Details

---

than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Comment:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate:	Pre-coated
--------	------------

Restrictions:	For Research Use only
---------------	-----------------------

## Handling

---

Storage:	4 °C/-20 °C
----------	-------------

Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.
------------------	---

Expiry Date:	6 months
