## Overview

|              |                                             |
|--------------|---------------------------------------------|
| Quantity:    | 100 µg                                      |
| Target:      | 14-3-3 theta (YWHAQ)                        |
| Reactivity:  | Human                                       |
| Host:        | Rabbit                                      |
| Clonality:   | Polyclonal                                  |
| Conjugate:   | This 14-3-3 theta antibody is un-conjugated |
| Application: | Western Blotting (WB), ELISA                |

## Product Details

|               |                                        |
|---------------|----------------------------------------|
| Immunogen:    | Recombinant protein.                   |
|               | Type of Immunogen: Recombinant protein |
| Purification: | Protein A/G purified                   |

## Target Details

|                   |                                                                                                                                          |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | 14-3-3 theta (YWHAQ)                                                                                                                     |
| Alternative Name: | YWHAQ / 14-3-3 theta ( <a href="#">YWHAQ Products</a> )                                                                                  |
| Background:       | Name/Gene ID: YWHAQ                                                                                                                      |
|                   | Synonyms: YWHAQ, 14-3-3 protein T-cell, 14-3-3 protein theta, 14-3-3 protein tau, 14-3-3, 14-3-3 Tau, 1C5, Protein HS1, HS1, Protein tau |

## Target Details

|           |                                                                                   |
|-----------|-----------------------------------------------------------------------------------|
| Gene ID:  | 10971                                                                             |
| Pathways: | <a href="#">Apoptosis</a> , <a href="#">Myometrial Relaxation and Contraction</a> |

## Application Details

|                    |                                                  |
|--------------------|--------------------------------------------------|
| Application Notes: | Approved: ELISA (1:320000), WB (1:1000 - 1:5000) |
| Comment:           | Target Species of Antibody: Human                |
| Restrictions:      | For Research Use only                            |

## Handling

|                  |                                                                       |
|------------------|-----------------------------------------------------------------------|
| Format:          | Lyophilized                                                           |
| Reconstitution:  | Sterile PBS                                                           |
| Concentration:   | Lot specific                                                          |
| Buffer:          | Lyophilized from PBS, no preservatives added                          |
| Preservative:    | Without preservative                                                  |
| Handling Advice: | Avoid freeze-thaw cycles.                                             |
| Storage:         | 4 °C, -20 °C                                                          |
| Storage Comment: | Short term: 4°C. Long term: Store at -20°C. Avoid freeze-thaw cycles. |
