## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 200 µL                                |
| Target:              | SH3RF2                                |
| Binding Specificity: | AA 457-483                            |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This SH3RF2 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA          |

## Product Details

|               |                                                                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                   |
| Specificity:  | This SH3RF2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 457-483 amino acids from the Central region of human SH3RF2. |
| Purification: | Affinity purified                                                                                                                                                     |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | SH3RF2                                     |
| Alternative Name: | SH3RF2 ( <a href="#">SH3RF2 Products</a> ) |
| Background:       | Name/Gene ID: SH3RF2                       |

Synonyms: SH3RF2, HEPP1, PPP1R39, POSH-eliminating RING protein, RING finger protein 158,

## Target Details

RNF158, POSHER

Gene ID: 153769

## Application Details

Application Notes: Approved: ELISA (1:1000), WB (1:100 - 1:500)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, pH 7.2, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C, -20 °C

Storage Comment: May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C. Aliquots are stable for 1 year.
