

Datasheet for ABIN2573891

**anti-Transferrin antibody (AA 380-565) (Biotin)**[Go to Product page](#)

## Overview

|                      |                                                   |
|----------------------|---------------------------------------------------|
| Quantity:            | 100 µL                                            |
| Target:              | Transferrin (TF)                                  |
| Binding Specificity: | AA 380-565                                        |
| Reactivity:          | Rat                                               |
| Host:                | Rabbit                                            |
| Clonality:           | Polyclonal                                        |
| Conjugate:           | This Transferrin antibody is conjugated to Biotin |
| Application:         | Western Blotting (WB)                             |

## Product Details

|               |                                                       |
|---------------|-------------------------------------------------------|
| Immunogen:    | Recombinant TRF (Ser380-Asn565) expressed in E. coli. |
|               | Type of Immunogen: Recombinant protein                |
| Isotype:      | IgG                                                   |
| Specificity:  | Rat TF / Transferrin                                  |
| Purification: | Affinity purified                                     |

## Target Details

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Target:           | Transferrin (TF)                                 |
| Alternative Name: | TF / Transferrin ( <a href="#">TF Products</a> ) |

## Target Details

|             |                                                                                                                                           |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Background: | Name/Gene ID: TF<br><br>Synonyms: TF, PRO1557, Serotransferrin, Siderophilin, TFQTL1, Beta-1 metal-binding globulin, Transferrin, PRO2086 |
| Gene ID:    | 7018                                                                                                                                      |
| Pathways:   | <a href="#">Transition Metal Ion Homeostasis</a>                                                                                          |

## Application Details

|                    |                                                                                                                                                  |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Approved: WB<br><br>Usage: The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested. |
| Comment:           | Target Species of Antibody: Rat                                                                                                                  |
| Restrictions:      | For Research Use only                                                                                                                            |

## Handling

|                    |                                                                                                                                                                                                    |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                                                                             |
| Concentration:     | Lot specific                                                                                                                                                                                       |
| Buffer:            | PBS, pH 7.4, 0.02 % sodium azide, 50 % glycerol.                                                                                                                                                   |
| Preservative:      | Sodium azide                                                                                                                                                                                       |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                                                                             |
| Storage:           | 4 °C,-20 °C,-80 °C                                                                                                                                                                                 |
| Storage Comment:   | Store frozen product at or below -20°C. Thawed product may be stored for 2-4 weeks at 4°C. For optimal storage, aliquot to smaller portions and store at -20°C to -70°C. Avoid freeze-thaw cycles. |
