## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 200 µL                                 |
| Target:              | UBASH3A                                |
| Binding Specificity: | AA 313-340                             |
| Reactivity:          | Human, Mouse                           |
| Host:                | Rabbit                                 |
| Clonality:           | Polyclonal                             |
| Conjugate:           | This UBASH3A antibody is un-conjugated |
| Application:         | ELISA, Western Blotting (WB)           |

## Product Details

|               |                                                                                                                                                                         |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                     |
| Specificity:  | This UBASH3A antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 313-340 amino acids from the Central region of human UBASH3A. |
| Purification: | Affinity purified                                                                                                                                                       |

## Target Details

|                                                                                          |                                                      |
|------------------------------------------------------------------------------------------|------------------------------------------------------|
| Target:                                                                                  | UBASH3A                                              |
| Alternative Name:                                                                        | UBASH3A / CLIP4 ( <a href="#">UBASH3A Products</a> ) |
| Background:                                                                              | Name/Gene ID: UBASH3A                                |
| Synonyms: UBASH3A, STS2, TULA-1, STS-2, T-cell ubiquitin ligand 1, TULA, Cbl-interacting |                                                      |

## Target Details

protein 4

Gene ID: 53347

## Application Details

Application Notes: Approved: ELISA (1:1000), WB (1:100 - 1:500)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, pH 7.2, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C, -20 °C

Storage Comment: May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C. Aliquots are stable for 1 year.
