## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 50 µg                                  |
| Target:              | C1orf57 (NTPCR)                        |
| Binding Specificity: | AA 1-190                               |
| Reactivity:          | Human                                  |
| Host:                | Mouse                                  |
| Clonality:           | Polyclonal                             |
| Conjugate:           | This C1orf57 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                  |

## Product Details

|               |                                                   |
|---------------|---------------------------------------------------|
| Immunogen:    | Full length human C1orf57, aa1-190 (NP_115700.1). |
|               | Type of Immunogen: Recombinant protein            |
| Isotype:      | IgG                                               |
| Specificity:  | Human NTPCR / C1orf57                             |
| Purification: | Affinity purified                                 |

## Target Details

|                   |                                                    |
|-------------------|----------------------------------------------------|
| Target:           | C1orf57 (NTPCR)                                    |
| Alternative Name: | NTPCR / C1orf57 ( <a href="#">NTPCR Products</a> ) |

### Target Details

|                 |                                                                                                                                  |
|-----------------|----------------------------------------------------------------------------------------------------------------------------------|
| Background:     | Name/Gene ID: NTPCR<br><br>Synonyms: NTPCR, C1orf57, HCR-NTPase, RP4-678E16.2, Human cancer-related NTPase, NTPase, RP4-659I19.2 |
| Gene ID:        | 84284                                                                                                                            |
| NCBI Accession: | <a href="#">NP_115700</a>                                                                                                        |

### Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Comment:           | Target Species of Antibody: Human                                  |
| Restrictions:      | For Research Use only                                              |

### Handling

|                  |                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                                                                  |
| Concentration:   | Lot specific                                                                                                                            |
| Buffer:          | PBS, pH 7.2.                                                                                                                            |
| Handling Advice: | Aliquot to avoid repeated freezing and thawing.                                                                                         |
| Storage:         | 4 °C,-20 °C                                                                                                                             |
| Storage Comment: | May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C. Aliquots are stable for at least 1 year. |
