## Overview

|                      |                                                     |
|----------------------|-----------------------------------------------------|
| Quantity:            | 200 µL                                              |
| Target:              | NUP35                                               |
| Binding Specificity: | AA 289-318                                          |
| Reactivity:          | Human                                               |
| Host:                | Rabbit                                              |
| Clonality:           | Polyclonal                                          |
| Conjugate:           | This NUP35 antibody is un-conjugated                |
| Application:         | Western Blotting (WB), ELISA, Flow Cytometry (FACS) |

## Product Details

|               |                                                                                                                                                                        |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                    |
| Specificity:  | This NUP35 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 289-318 amino acids from the C-terminal region of human NUP35. |
| Purification: | Affinity purified                                                                                                                                                      |

## Target Details

|                                                                                           |                                                  |
|-------------------------------------------------------------------------------------------|--------------------------------------------------|
| Target:                                                                                   | NUP35                                            |
| Alternative Name:                                                                         | NUP35 / NUP53 ( <a href="#">NUP35 Products</a> ) |
| Background:                                                                               | Name/Gene ID: NUP35                              |
| Synonyms: NUP35, 35 kDa nucleoporin, Mitotic phosphoprotein 44, MP-44, Nucleoporin Nup35, |                                                  |

## Target Details

Nucleoporin NUP53, Nucleoporin 35 kDa, MP44, NP44, NUP53

Gene ID: 129401

## Application Details

Application Notes: Approved: ELISA (1:1000), Flo (1:10 - 1:50), WB (1:100 - 1:500)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, pH 7.2, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C, -20 °C

Storage Comment: May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C. Aliquots are stable for 1 year.
