# Datasheet for ABIN2581719 anti-NVL antibody (AA 796-823)

Overview

| Quantity:            | 200 µL                             |
|----------------------|------------------------------------|
| Target:              | NVL                                |
| Binding Specificity: | AA 796-823                         |
| Reactivity:          | Human                              |
| Host:                | Rabbit                             |
| Clonality:           | Polyclonal                         |
| Conjugate:           | This NVL antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA       |

### Product Details

| Isotype:      | lgG  |
|---------------|--|
| Specificity:  | This NVL antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 796-823 amino acids from the C-terminal region of human NVL. |
| Purification: | Affinity purified  |

#### Target Details

| Target:           | NVL                |
|-------------------|--------------------|
| Alternative Name: | NVL (NVL Products) |
| Background:       | Name/Gene ID: NVL  |

Synonyms: NVL, Nuclear VCP-like, NVLp, Nuclear VCP-like protein

#### Target Details

## Application Details

| Application Notes: | Approved: ELISA (1:1000), WB (1:100 - 1:500) |
|--------------------|--|
| Comment:           | Target Species of Antibody: Human            |
| Restrictions:      | For Research Use only                        |

## Handling

| Format:            | Liquid  |
|--------------------|---|
| Concentration:     | Lot specific  |
| Buffer:            | PBS, pH 7.2, 0.09 % sodium azide.   |
| Preservative:      | Sodium azide  |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.            |
| Handling Advice:   | Aliquot to avoid repeated freezing and thawing.   |
| Storage:           | 4 °C,-20 °C   |
| Storage Comment:   | May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C.<br>Aliquots are stable for 1 year. |
