### 1 Image

#### Overview

|              |                                                                                                                       |
|--------------|-----------------------------------------------------------------------------------------------------------------------|
| Quantity:    | 100 µg                                                                                                                |
| Target:      | Monoamine Oxidase B (MAOB)                                                                                            |
| Reactivity:  | Human                                                                                                                 |
| Host:        | Rabbit                                                                                                                |
| Clonality:   | Polyclonal                                                                                                            |
| Conjugate:   | This Monoamine Oxidase B antibody is conjugated to FITC                                                               |
| Application: | Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

#### Product Details

|               |                                                                                                              |
|---------------|--------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Recombinant human Amine oxidase [flavin-containing] B protein.<br><br>Type of Immunogen: Recombinant protein |
| Isotype:      | IgG                                                                                                          |
| Specificity:  | Human MAOB / Monoamine Oxidase B                                                                             |
| Purification: | Caprylic acid and ammonium sulfate precipitation                                                             |

#### Target Details

|                   |                                                              |
|-------------------|--------------------------------------------------------------|
| Target:           | Monoamine Oxidase B (MAOB)                                   |
| Alternative Name: | MAOB / Monoamine Oxidase B ( <a href="#">MAOB Products</a> ) |
| Background:       | Name/Gene ID: MAOB                                           |

## Target Details

Synonyms: MAOB, Adrenalin oxidase, MAO, brain, MAO-B, Monoamine oxidase type B, MAO, platelet, Tyramine oxidase, Monoamine oxidase B

Gene ID: 4129

## Application Details

Application Notes: Approved: ELISA, IHC, IHC-P, WB

Usage: The applications listed have been tested for the unconjugated form of this product.  
Other forms have not been tested.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, pH 7.4, 0.03 % Proclin 300, 50 % glycerol.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Avoid freeze-thaw cycles.

Storage: -20 °C,-80 °C

Storage Comment: Aliquot and store at -20°C or -80°C. Avoid freeze-thaw cycles.

#### Immunohistochemistry (Paraffin-embedded Sections)

**Image 1.** Human Heart: Formalin-Fixed, Paraffin-Embedded (FFPE). This image was taken for the unconjugated form of this product. Other forms have not been tested.
