## Overview

|                      |                                                |
|----------------------|------------------------------------------------|
| Quantity:            | 50 µg                                          |
| Target:              | ATAD3A                                         |
| Binding Specificity: | AA 1-586                                       |
| Reactivity:          | Human                                          |
| Host:                | Mouse                                          |
| Clonality:           | Polyclonal                                     |
| Conjugate:           | This ATAD3A antibody is un-conjugated          |
| Application:         | Western Blotting (WB), Immunofluorescence (IF) |

## Product Details

|               |                                                 |
|---------------|-------------------------------------------------|
| Immunogen:    | Full length human ATAD3A, aa1-586 (AAH33109.1). |
|               | Type of Immunogen: Recombinant protein          |
| Isotype:      | IgG                                             |
| Specificity:  | Human ATAD3A                                    |
| Purification: | Affinity purified                               |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | ATAD3A                                     |
| Alternative Name: | ATAD3A ( <a href="#">ATAD3A Products</a> ) |

## Target Details

Background: Name/Gene ID: ATAD3A

Synonyms: ATAD3A

Gene ID: 55210

## Application Details

Application Notes: Approved: IF (10 µg/mL), WB

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, pH 7.2.

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C,-20 °C

Storage Comment: May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C.  
Aliquots are stable for at least 1 year.
