

Datasheet for ABIN2592333  
**anti-CCL24 antibody (AA 27-119) (FITC)**

[Go to Product page](#)

## Overview

|                      |                                           |
|----------------------|-------------------------------------------|
| Quantity:            | 100 µL                                    |
| Target:              | CCL24                                     |
| Binding Specificity: | AA 27-119                                 |
| Reactivity:          | Mouse                                     |
| Host:                | Rabbit                                    |
| Clonality:           | Polyclonal                                |
| Conjugate:           | This CCL24 antibody is conjugated to FITC |
| Application:         | Western Blotting (WB)                     |

## Product Details

|               |                                                        |
|---------------|--------------------------------------------------------|
| Immunogen:    | Recombinant MPIF2 (Val27-Val119) expressed in E. coli. |
|               | Type of Immunogen: Recombinant protein                 |
| Isotype:      | IgG                                                    |
| Specificity:  | Mouse CCL24 / Eotaxin 2                                |
| Purification: | Affinity purified                                      |

## Target Details

|                   |                                                      |
|-------------------|------------------------------------------------------|
| Target:           | CCL24                                                |
| Alternative Name: | CCL24 / Eotaxin 2 ( <a href="#">CCL24 Products</a> ) |

## Target Details

|             |                                                                                                                                     |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Background: | Name/Gene ID: CCL24                                                                                                                 |
|             | Subfamily: Interocrine beta                                                                                                         |
|             | Family: Interocrine                                                                                                                 |
|             | Synonyms: CCL24, C-C motif chemokine 24, Ckb-6, CK-beta-6, Eotaxin2, MPIF-2, MPIF2, SCYA24, Small-inducible cytokine A24, Eotaxin-2 |
| Gene ID:    | 6369                                                                                                                                |
| Pathways:   | <a href="#">Regulation of Actin Filament Polymerization</a>                                                                         |

## Application Details

|                    |                                                                                                                                 |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Approved: WB (1:100 - 1:400)                                                                                                    |
|                    | Usage: The applications listed have been tested for the unconjugated form of this product.<br>Other forms have not been tested. |
| Comment:           | Target Species of Antibody: Mouse                                                                                               |
| Restrictions:      | For Research Use only                                                                                                           |

## Handling

|                    |                                                                                                                                                                                                       |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                                                                                |
| Concentration:     | Lot specific                                                                                                                                                                                          |
| Buffer:            | PBS, pH 7.4, 0.02 % sodium azide, 50 % glycerol.                                                                                                                                                      |
| Preservative:      | Sodium azide                                                                                                                                                                                          |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                                                                                |
| Storage:           | 4 °C,-20 °C,-80 °C                                                                                                                                                                                    |
| Storage Comment:   | Store frozen product at or below -20°C. Thawed product may be stored for 2-4 weeks at 4°C.<br>For optimal storage, aliquot to smaller portions and store at -20°C to -70°C. Avoid freeze-thaw cycles. |
