

## Datasheet for ABIN2594693 **anti-Adipsin antibody**

[Go to Product page](#)

### Overview

|              |                                        |
|--------------|----------------------------------------|
| Quantity:    | 100 µg                                 |
| Target:      | Adipsin (CFD)                          |
| Reactivity:  | Human                                  |
| Host:        | Rabbit                                 |
| Clonality:   | Polyclonal                             |
| Conjugate:   | This Adipsin antibody is un-conjugated |
| Application: | Western Blotting (WB), ELISA           |

### Product Details

|               |                                                                                                                                                                                                                   |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide derived from Human Adipsin.                                                                                                                                                                     |
| Isotype:      | IgG                                                                                                                                                                                                               |
| Specificity:  | The rabbit anti-human Adipsin antibody detects targets derived from human recombinant and cellular proteins at various concentrations. Cross reactivity with mouse and rat are expected from sequence similarity. |
| Purification: | Protein A/G purified                                                                                                                                                                                              |

### Target Details

|                   |                                                           |
|-------------------|-----------------------------------------------------------|
| Target:           | Adipsin (CFD)                                             |
| Alternative Name: | CFD / Factor D / Adipsin ( <a href="#">CFD Products</a> ) |
| Background:       | Name/Gene ID: CFD<br>Subfamily: Serine S1                 |

## Target Details

Family: Protease

Synonyms: CFD, ADIPSIN, C3 convertase activator, Complement factor D, Complement protein D, Complement factor D (adipsin), DF, ADN, Factor D, PFD, Properdin factor D

Gene ID: 1675

Pathways: [Complement System](#)

## Application Details

Application Notes: Approved: ELISA (1:5000 - 1:10000), WB (1:1000 - 1:2000)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Lyophilized

Reconstitution: Sterile PBS

Concentration: Lot specific

Buffer: Lyophilized from PBS, no preservatives added

Preservative: Without preservative

Handling Advice: Avoid freeze-thaw cycles.

Storage: 4 °C,-20 °C

Storage Comment: Short term: 4°C. Long term: Store at -20°C. Avoid freeze-thaw cycles.
