

Datasheet for ABIN2598826  
**anti-Dynamin 3 antibody (AA 557-584)**

[Go to Product page](#)

## Overview

|                      |                                          |
|----------------------|------------------------------------------|
| Quantity:            | 200 µL                                   |
| Target:              | Dynamin 3 (DNM3)                         |
| Binding Specificity: | AA 557-584                               |
| Reactivity:          | Human                                    |
| Host:                | Rabbit                                   |
| Clonality:           | Polyclonal                               |
| Conjugate:           | This Dynamin 3 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA             |

## Product Details

|               |                                                                                                                                                                   |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                               |
| Specificity:  | This DNM3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 557-584 amino acids from the Central region of human DNM3. |
| Purification: | Affinity purified                                                                                                                                                 |

## Target Details

|                   |                                                                                 |
|-------------------|---------------------------------------------------------------------------------|
| Target:           | Dynamin 3 (DNM3)                                                                |
| Alternative Name: | DNM3 / Dynamin 3 ( <a href="#">DNM3 Products</a> )                              |
| Background:       | Name/Gene ID: DNM3                                                              |
|                   | Synonyms: DNM3, Dyna III, Dynamin 3, Dynamin family member, Dynamin-3, Dynamin, |

### Target Details

|           |                                              |
|-----------|----------------------------------------------|
|           | testicular, KIAA0820, T-dynamin              |
| Gene ID:  | 26052                                        |
| Pathways: | <a href="#">Toll-Like Receptors Cascades</a> |

### Application Details

|                    |                                              |
|--------------------|----------------------------------------------|
| Application Notes: | Approved: ELISA (1:1000), WB (1:100 - 1:500) |
| Comment:           | Target Species of Antibody: Human            |
| Restrictions:      | For Research Use only                        |

### Handling

|                    |                                                                                                                                         |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                  |
| Concentration:     | Lot specific                                                                                                                            |
| Buffer:            | PBS, 0.09 % sodium azide.                                                                                                               |
| Preservative:      | Sodium azide                                                                                                                            |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                  |
| Handling Advice:   | Aliquot to avoid repeated freezing and thawing.                                                                                         |
| Storage:           | 4 °C,-20 °C                                                                                                                             |
| Storage Comment:   | May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C. Aliquots are stable for at least 1 year. |
