## Overview

|                      |                                                |
|----------------------|------------------------------------------------|
| Quantity:            | 50 µg                                          |
| Target:              | Glutaredoxin 2 (GRX2)                          |
| Binding Specificity: | AA 1-125                                       |
| Reactivity:          | Human                                          |
| Host:                | Mouse                                          |
| Clonality:           | Polyclonal                                     |
| Conjugate:           | This Glutaredoxin 2 antibody is un-conjugated  |
| Application:         | Western Blotting (WB), Immunofluorescence (IF) |

## Product Details

|               |                                              |
|---------------|----------------------------------------------|
| Immunogen:    | Full length human GLRX2, aa1-125 (AAH28113). |
|               | Type of Immunogen: Recombinant protein       |
| Isotype:      | IgG                                          |
| Specificity:  | Human GLRX2 / Glutaredoxin 2.                |
| Purification: | Affinity purified                            |

## Target Details

|                   |                                                          |
|-------------------|----------------------------------------------------------|
| Target:           | Glutaredoxin 2 (GRX2)                                    |
| Alternative Name: | GLRX2 / Glutaredoxin 2 ( <a href="#">GRX2 Products</a> ) |

## Target Details

|             |                                                            |
|-------------|------------------------------------------------------------|
| Background: | Name/Gene ID: GLRX2                                        |
|             | Synonyms: GLRX2, BA101E13.1, GRX2, Glutaredoxin 2, CGI-133 |
| Gene ID:    | 51022                                                      |
| Pathways:   | <a href="#">Cell RedoxHomeostasis</a>                      |

## Application Details

|                    |                                   |
|--------------------|-----------------------------------|
| Application Notes: | Approved: IF (10 µg/mL), WB       |
| Comment:           | Target Species of Antibody: Human |
| Restrictions:      | For Research Use only             |

## Handling

|                  |                                                                                                                                            |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                                                                     |
| Concentration:   | Lot specific                                                                                                                               |
| Buffer:          | PBS, pH 7.2.                                                                                                                               |
| Handling Advice: | Aliquot to avoid repeated freezing and thawing.                                                                                            |
| Storage:         | 4 °C,-20 °C                                                                                                                                |
| Storage Comment: | May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C.<br>Aliquots are stable for at least 1 year. |
