## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 200 µL                              |
| Target:              | ICMT                                |
| Binding Specificity: | AA 250-284                          |
| Reactivity:          | Human                               |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This ICMT antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA        |

## Product Details

|               |                                                                                                                                                                      |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:      | IgG                                                                                                                                                                  |
| Specificity:  | This ICMT antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 250-284 amino acids from the C-terminal region of human ICMT. |
| Purification: | Affinity purified                                                                                                                                                    |

## Target Details

|                                                            |                                               |
|------------------------------------------------------------|-----------------------------------------------|
| Target:                                                    | ICMT                                          |
| Alternative Name:                                          | ICMT / PPMT ( <a href="#">ICMT Products</a> ) |
| Background:                                                | Name/Gene ID: ICMT                            |
| Synonyms: ICMT, MSTP098, HSTE14, PPMT, MST098, PCCMT, PCMT |                                               |

### Target Details

Gene ID: 23463

### Application Details

Application Notes: Approved: ELISA (1:1000), WB (1:100 - 1:500)

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

### Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C,-20 °C

Storage Comment: May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C. Aliquots are stable for at least 1 year.
