

Datasheet for ABIN2615053  
**anti-EIF2C3 antibody (AA 1-626)**

[Go to Product page](#)

## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 100 µg                                |
| Target:              | EIF2C3                                |
| Binding Specificity: | AA 1-626                              |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This EIF2C3 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                 |

## Product Details

|               |                                                  |
|---------------|--------------------------------------------------|
| Immunogen:    | Full length human EIF2C3, aa1-626 (NP_803171.1). |
|               | Type of Immunogen: Recombinant protein           |
| Isotype:      | IgG                                              |
| Specificity:  | Human AGO3 / EIF2C3.                             |
| Purification: | Affinity purified                                |

## Target Details

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Target:           | EIF2C3                                            |
| Alternative Name: | AGO3 / EIF2C3 ( <a href="#">EIF2C3 Products</a> ) |

## Target Details

|                 |                                                                                                                                                                                           |
|-----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Background:     | Name/Gene ID: AGO3<br><br>Synonyms: AGO3, Argonaute3, Argonaute 3, EIF-2C 3, HAgo3, EIF2C 3, EIF2C3, Protein argonaute-3                                                                  |
| Gene ID:        | 192669                                                                                                                                                                                    |
| NCBI Accession: | <a href="#">NP_803171</a>                                                                                                                                                                 |
| Pathways:       | <a href="#">Fc-epsilon Receptor Signaling Pathway</a> , <a href="#">Regulatory RNA Pathways</a> , <a href="#">EGFR Signaling Pathway</a> , <a href="#">Neurotrophin Signaling Pathway</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Comment:           | Target Species of Antibody: Human                                  |
| Restrictions:      | For Research Use only                                              |

## Handling

|                  |                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                                                                  |
| Concentration:   | Lot specific                                                                                                                            |
| Buffer:          | PBS, pH 7.2.                                                                                                                            |
| Handling Advice: | Aliquot to avoid repeated freezing and thawing.                                                                                         |
| Storage:         | 4 °C,-20 °C                                                                                                                             |
| Storage Comment: | May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C. Aliquots are stable for at least 1 year. |
