## Overview

|                      |                                                                                                                       |
|----------------------|-----------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                                                                |
| Target:              | AGTRAP                                                                                                                |
| Binding Specificity: | AA 108-210                                                                                                            |
| Reactivity:          | Human                                                                                                                 |
| Host:                | Mouse                                                                                                                 |
| Clonality:           | Monoclonal                                                                                                            |
| Conjugate:           | This AGTRAP antibody is un-conjugated                                                                                 |
| Application:         | ELISA, Western Blotting (WB), Immunohistochemistry (IHC), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

|               |                                                                                                                                                              |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Partial recombinant (aa108-210) from human AGTRAP (NP_065083) with GST tag. MW of the GST tag alone is 26 KDa.<br><br>Type of Immunogen: Recombinant protein |
| Isotype:      | IgG1 kappa                                                                                                                                                   |
| Specificity:  | Human AGTRAP / ATRAP                                                                                                                                         |
| Purification: | Affinity purified                                                                                                                                            |

## Target Details

|         |        |
|---------|--------|
| Target: | AGTRAP |
|---------|--------|

### Target Details

Alternative Name: AGTRAP / ATRAP ([AGTRAP Products](#))

Background: Name/Gene ID: AGTRAP  
  
Synonyms: AGTRAP, ATRAP

Gene ID: 57085

NCBI Accession: [NP\\_065083](#)

### Application Details

Application Notes: Approved: ELISA, IHC, IHC-P (0.8 µg/mL), WB

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

### Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, pH 7.2.

Handling Advice: Aliquot to avoid repeated freezing and thawing.

Storage: 4 °C,-20 °C

Storage Comment: May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C.  
Aliquots are stable for at least 1 year.
