

Datasheet for ABIN2661391
anti-TIM3 antibody (FITC)

[Go to Product page](#)

1 Image

Overview

Quantity:	100 tests
Target:	TIM3 (TIM 3)
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This TIM3 antibody is conjugated to FITC
Application:	Flow Cytometry (FACS)

Product Details

Clone:	F38-2E2
Isotype:	IgG1 kappa
Cross-Reactivity:	Rhesus Monkey
Purification:	The antibody was purified by affinity chromatography and conjugated with FITC under optimal conditions. The solution is free of unconjugated FITC and unconjugated antibody.

Target Details

Target:	TIM3 (TIM 3)
Alternative Name:	CD366 (TIM 3 Products)
Target Type:	Virus
Background:	CD366 (Tim-3) is a transmembrane protein also known as T cell immunoglobulin and mucin

Target Details

domain containing protein-3. Tim-3 is expressed at high levels on activated T cells (preferentially on Th1 cells, monocytes/macrophages, and dendritic cells). Tim-3 has also been shown to exist as a soluble protein. Cells expressing Tim-3 are present at high levels in the CNS of animals at the onset of experimental autoimmune encephalomyelitis (EAE), a disease mediated by lymphocytes secreting Th1-like cytokines. Tim-3 has been proposed to inhibit Th1-mediated immune responses and promote immunological tolerance.

Pathways: [Regulation of Lipid Metabolism by PPARalpha, Cancer Immune Checkpoints](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Buffer: Phosphate-buffered solution, pH 7.2, containing 0.09 % sodium azide and 0.2 % (w/v) BSA .

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Protect from prolonged exposure to light. Do not freeze.

Storage: 4 °C

Storage Comment: The antibody solution should be stored undiluted between 2°C and 8°C.
