anti-DR3/LARD antibody (PE)[Go to Product page](#)

2 Images

Overview

Quantity:	100 µg
Target:	DR3/LARD (TNFRSF25)
Reactivity:	Mouse
Host:	Armenian Hamster
Clonality:	Monoclonal
Conjugate:	This DR3/LARD antibody is conjugated to PE
Application:	Flow Cytometry (FACS)

Product Details

Clone:	4C12
Isotype:	IgG
Purification:	The antibody was purified by affinity chromatography and conjugated with PE under optimal conditions. The solution is free of unconjugated PE and unconjugated antibody.

Target Details

Target:	DR3/LARD (TNFRSF25)
Alternative Name:	DR3 (TNFRSF25 Products)
Background:	DR3, also known as TNFRSF25, lymphocyte-associated receptor of death (LARD), WSL-1, TRAMP, TR3 and APO3, is a 55 kD glycoprotein belonging to the TNF receptor superfamily (TNFRSF). TNFRSF25 is expressed at low level on CD4-positive, CD8-positive T cells and NKT cells. It has been shown to stimulate NF-κB activity and regulate cell apoptosis. The signal

Target Details

transduction of this receptor is mediated by various death domains containing adaptor proteins. Recently, it has been shown that TNFRSF25 is also expressed on Treg cells and regulates Treg proliferation.

Pathways: [Apoptosis](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Concentration: 0.2 mg/mL

Buffer: Phosphate-buffered solution, pH 7.2, containing 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Protect from prolonged exposure to light. Do not freeze.

Storage: 4 °C

Storage Comment: The antibody solution should be stored undiluted between 2°C and 8°C.
