# Target Details

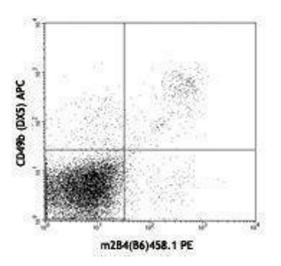

Target:	2B4 (CD244)
Alternative Name:	CD244.2 (CD244 Products)
Background:	Mouse CD244, also known as 2B4, is a receptor belonging to the CD2 family of proteins
	involved in non- MHC-restricted cytotoxicity. It is expressed on all natural killer (NK) cells, IL-2
	activated NK (LAK) cells, NKT cells, and a subset of T lymphocytes, including dendritic
	epidermal T cells. There are at least two isoforms of CD244.2 proteins that differ in the length

The ligand of CD244 is CD48, which is expressed on all hematopoietic cells. It was reported that CD244 interaction with CD48 is essential for IL-2driven expansion and activation of murine NK cells.
