Anti-DYKDDDDK Tag (L5) Affinity Gel**2** Images[Go to Product page](#)

Overview

Quantity:	500 µL
Target:	DYKDDDDK Tag
Reactivity:	Tag
Host:	Rat
Clonality:	Monoclonal
Application:	Multiplex Assay (MA)

Product Details

Characteristics:	<p>The anti-DYKDDDDK tag affinity gel is composed of the L5 antibody conjugated to an agarose resin, which can be used for purification of proteins expressing the octapeptide, DYKDDDDK. The DYKDDDDK tag, commonly referred to as Sigma®'s FLAG® Tag, is often used as a protein modification in order to simplify the labeling and detection of proteins. The binding capacity of the L5 agarose resin is greater than 0.8 mg/mL. The resin can be re-used at least five times (see technical bulletin for regeneration and storage). This affinity gel is also useful for immunoprecipitation of DYKDDDDK-tagged protein.</p>
Purification:	The antibody was purified by affinity chromatography.
Components:	Anti-DYKDDDDK Tag (L5) Affinity Gel

Target Details

Target:	DYKDDDDK Tag
Abstract:	DYKDDDDK Tag Products

Target Details

Target Type: Tag

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: 50 % anti-DYKDDDDK-tag (L5) antibody conjugated resin is supplied in 1X PBS and 0.09 % Sodium azide. The volume specified for each catalog number indicates the volume of resin included.

Storage: 4 °C

Storage Comment: Upon receipt, store between 2°C and 8°C. The unopened product is stable for one year upon arrival.

Expiry Date: 12 months
