Cytohesin 3 Protein (CYTH3) (Myc-DYKDDDDK Tag)

Image

Overview	
Quantity:	20 μg
Target:	Cytohesin 3 (CYTH3)
Origin:	Human
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This Cytohesin 3 protein is labelled with Myc-DYKDDDDK Tag.
Application:	Antibody Production (AbP), Standard (STD)
Product Details	
Characteristics:	 Recombinant human Cytohesin 3 protein expressed in HEK293 cells. Produced with end-sequenced ORF clone
Purity:	> 80 % as determined by SDS-PAGE and Coomassie blue staining
Target Details	
Target:	Cytohesin 3 (CYTH3)
Alternative Name:	Cytohesin 3 (CYTH3 Products)
Background:	This gene encodes a member of the PSCD (pleckstrin homology, Sec7 and coiled-coil domains)
	family. PSCD family members have identical structural organization that consists of an N-
	terminal coiled-coil motif, a central Sec7 domain, and a C-terminal pleckstrin homology (PH)
	domain. The coiled-coil motif is involved in homodimerization, the Sec7 domain contains
	guanine-nucleotide exchange protein (GEP) activity, and the PH domain interacts with

Target Details

phospholipids and is responsible for association of PSCDs with membranes. Members of this family appear to mediate the regulation of protein sorting and membrane trafficking. This encoded protein is involved in the control of Golgi structure and function, and it may have a physiological role in regulating ADP-ribosylation factor protein 6 (ARF) functions, in addition to acting on ARF1.

Molecular Weight:

46.1 kDa

NCBI Accession:

NP_004218

Application Details

Application Notes: Recombinant human proteins can be used for:

Native antigens for optimized antibody production

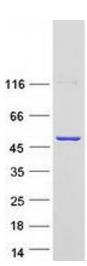

Positive controls in ELISA and other antibody assays

Comment: The tag is located at the C-terminal.

Restrictions: For Research Use only

Handling

Concentration:	50 μg/mL
Buffer:	25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.
Storage:	-80 °C
Storage Comment:	Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended.

Western Blotting
