Datasheet for ABIN2713133 CA5B Protein

Image

Overview

Target Details	
Endotoxin Level:	< 0.1 EU per μ g protein as determined by LAL test
Purity:	> 95 % as determined by SDS-PAGE and Coomassie blue staining
Characteristics:	 Recombinant human Carbonic anhydrase 5B protein expressed in E. coli. Produced with end-sequenced ORF clone
Product Details	
Application:	Antibody Production (AbP), Standard (STD)
Protein Type:	Recombinant
Source:	Escherichia coli (E. coli)
Origin:	Human
Target:	CA5B
Quantity:	10 µg

Target:	CA5B
Alternative Name:	Carbonic Anhydrase 5b (CA5B Products)
Background:	Carbonic anhydrases (CAs) are a large family of zinc metalloenzymes that catalyze the reversible hydration of carbon dioxide. They participate in a variety of biological processes, including respiration, calcification, acid-base balance, bone resorption, and the formation of aqueous humor, cerebrospinal fluid, saliva, and gastric acid. They show extensive diversity in tissue distribution and in their subcellular localization. CA VB is localized in the mitochondria

rarget Details	
	and shows the highest sequence similarity to the other mitochondrial CA, CA VA. It has a wider tissue distribution than CA VA, which is restricted to the liver. The differences in tissue distribution suggest that the two mitochondrial carbonic anhydrases evolved to assume different physiologic roles.
Molecular Weight:	33.8 kDa
NCBI Accession:	NP_009151
Application Details	
Application Notes:	Recombinant human proteins can be used for: Native antigens for optimized antibody production Positive controls in ELISA and other antibody assays
Restrictions:	For Research Use only
Handling	
Concentration:	50 μg/mL
Buffer:	20 mM Tris-HCl, 100 mM NaCl, pH 8.0. Avoid repeated freeze-thaw cycles. Stable for at least 3 months from receipt of products under proper storage and handling conditions.
Storage:	-80 °C
Storage Comment:	Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended.
