Datasheet for ABIN2714372 Actl7b Protein (Myc-DYKDDDDK Tag)

Overview

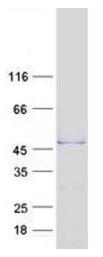

Quantity:	20 µg
Target:	Actl7b
Origin:	Human
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This ActI7b protein is labelled with Myc-DYKDDDDK Tag.
Application:	Antibody Production (AbP), Standard (STD)
Product Details	
Characteristics:	 Recombinant human ACTL7B protein expressed in HEK293 cells. Produced with end-sequenced ORF clone
Purity:	> 80 % as determined by SDS-PAGE and Coomassie blue staining
Target Details	
Target:	Actl7b
Alternative Name:	ActI7b (ActI7b Products)
Background:	The protein encoded by this gene is a member of a family of actin-related proteins (ARPs) which share significant amino acid sequence identity to conventional actins. Both actins and ARPs have an actin fold, which is an ATP-binding cleft, as a common feature. The ARPs are involved in diverse cellular processes, including vesicular transport, spindle orientation, nuclear migration and chromatin remodeling. This gene (ACTL7B), and related gene, ACTL7A, are

Target Details

	intronless, and are located approximately 4 kb apart in a head-to-head orientation within the
	familial dysautonomia candidate region on 9q31. Based on mutational analysis of the ACTL7B
	gene in patients with this disorder, it was concluded that it is unlikely to be involved in the
	pathogenesis of dysautonomia. Unlike ACTL7A, the ACTL7B gene is expressed predominantly
	in the testis, however, its exact function is not known.
Molecular Weight:	45.1 kDa
NCBI Accession:	NP_006677
Application Details	
Application Notes:	Recombinant human proteins can be used for:
	Native antigens for optimized antibody production
	Positive controls in ELISA and other antibody assays
Comment:	The tag is located at the C-terminal.
Restrictions:	For Research Use only
Handling	
Concentration:	50 μg/mL
Buffer:	25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.
Storage:	-80 °C
Storage Comment:	Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze
	immediately. Only 2-3 freeze thaw cycles are recommended.
