Datasheet for ABIN2715020 ATF2 Protein (His tag)

Image

Overview

Quantity:	50 µg
Target:	ATF2
Origin:	Human
Source:	Escherichia coli (E. coli)
Protein Type:	Recombinant
Purification tag / Conjugate:	This ATF2 protein is labelled with His tag.
Application:	Antibody Production (AbP), Standard (STD)
Product Details	
Characteristics:	 Recombinant human ATF2 (full length, N-term HIS tag) protein expressed in E. coli. Produced with end-sequenced ORF clone
Purity:	> 80 % as determined by SDS-PAGE and Coomassie blue staining
Target Details	
Target:	ATF2
Alternative Name:	Atf2 (ATF2 Products)
Background:	This gene encodes a transcription factor that is a member of the leucine zipper family of DNA
	binding proteins. The encoded protein has been identified as a moonlighting protein based on
	its ability to perform mechanistically distinct functions This protein binds to the cAMP-
	responsive element (CRE), an octameric palindrome. It forms a homodimer or a heterodimer

with c-Jun and stimulates CRE-dependent transcription. This protein is also a histone

	acetyltransferase (HAT) that specifically acetylates histones H2B and H4 in vitro thus it may
	represent a class of sequence-specific factors that activate transcription by direct effects on
	chromatin components. The encoded protein may also be involved in cell's DNA damage
	response independent of its role in transcriptional regulation. Several alternatively spliced
	transcript variants have been found for this gene
Molecular Weight:	54.4 kDa
NCBI Accession:	NP_001871
Pathways:	MAPK Signaling, RTK Signaling, Thyroid Hormone Synthesis, Activation of Innate immune
	Response, Chromatin Binding, Myometrial Relaxation and Contraction, Synaptic Membrane,
	Tube Formation, Toll-Like Receptors Cascades

Application Details

Application Notes:	Recombinant human proteins can be used for:
	Native antigens for optimized antibody production
	Positive controls in ELISA and other antibody assays
Comment:	The tag is located at the N-terminal.
Restrictions:	For Research Use only
Handling	
Concentration:	50 µg/mL
Buffer:	25 mM Tris, pH 8.0, 150 mM NaCl, 10 % glycerol, 1 % Sarkosyl.
Storage:	-80 °C
Storage Comment:	Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze
	immediately. Only 2-3 freeze thaw cycles are recommended.
