ATP6V1F Protein (Myc-DYKDDDDK Tag)

Overview

Image

Go to	Prod	luct	page

Quantity:	20 μg
Target:	ATP6V1F
Origin:	Human
Source:	HEK-293 Cells
Protein Type:	Recombinant

Application: Antibody Production (AbP), Standard (STD)

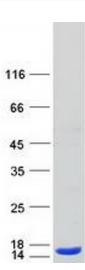

Product Details

Purity:	> 80 % as determined by SDS-PAGE and Coomassie blue staining
	Produced with end-sequenced ORF clone
Characteristics:	 Recombinant numan ATP6VTF protein expressed in HEK293 cells.

Target Details

Target:	ATP6V1F
Alternative Name:	Atp6v1f (ATP6V1F Products)
Background:	This gene encodes a component of vacuolar ATPase (V-ATPase), a multisubunit enzyme that mediates acidification of eukaryotic intracellular organelles. V-ATPase dependent organelle
	acidification is necessary for such intracellular processes as protein sorting, zymogen
	activation, receptor-mediated endocytosis, and synaptic vesicle proton gradient generation. V-
	ATPase is composed of a cytosolic V1 domain and a transmembrane V0 domain. The V1

- Target Betane	
	domain consists of three A and three B subunits, two G subunits plus the C, D, E, F, and H subunits. The V1 domain contains the ATP catalytic site. The V0 domain consists of five different subunits: a, c, c', c', and d. Additional isoforms of many of the V1 and V0 subunit proteins are encoded by multiple genes or alternatively spliced transcript variants. This encoded protein is the V1 domain F subunit protein.
Molecular Weight:	13.2 kDa
NCBI Accession:	NP_004222
Pathways:	Transition Metal Ion Homeostasis, Proton Transport
Application Details	
Application Notes:	Recombinant human proteins can be used for: Native antigens for optimized antibody production Positive controls in ELISA and other antibody assays
Comment:	The tag is located at the C-terminal.
Restrictions:	For Research Use only
Handling	
Concentration:	50 μg/mL
Buffer:	25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.
Storage:	-80 °C
Storage Comment:	Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended.

Western Blotting
