## Datasheet for ABIN2715167 BBS4 Protein (Myc-DYKDDDDK Tag)

Image

## Overview

Quantity:	20 µg
Target:	BBS4
Origin:	Human
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This BBS4 protein is labelled with Myc-DYKDDDDK Tag.
Application:	Antibody Production (AbP), Standard (STD)
Product Details	
Characteristics:	<ul><li>Recombinant human BBS4 protein expressed in HEK293 cells.</li><li>Produced with end-sequenced ORF clone</li></ul>
Purity:	> 80 % as determined by SDS-PAGE and Coomassie blue staining
Target Details	
Target:	BBS4
Alternative Name:	Bbs4 (BBS4 Products)
Background:	This gene is a member of the Bardet-Biedl syndrome (BBS) gene family. Bardet-Biedl syndrome is an autosomal recessive disorder characterized by severe pigmentary retinopathy, obesity, polydactyly, renal malformation and mental retardation. The proteins encoded by BBS gene family members are structurally diverse. The similar phenotypes exhibited by mutations in BBS gene family members are likely due to the protein&aposs shared roles in cilia formation and

## Target Details

	function. Many BBS proteins localize to the basal bodies, ciliary axonemes, and pericentriolar
	regions of cells. BBS proteins may also be involved in intracellular trafficking via microtubule-
	related transport. The protein encoded by this gene has sequence similarity to O-linked N-
	acetylglucosamine (O-GlcNAc) transferases in plants and archaebacteria and in human forms a
	multi-protein &quotBBSome" complex with seven other BBS proteins. Alternate splicing results
	in multiple transcript variants.
Molecular Weight:	58.1 kDa
NCBI Accession:	NP_149017
Pathways:	Hedgehog Signaling, Tube Formation, Maintenance of Protein Location
Application Details	
Application Notes:	Recombinant human proteins can be used for:
	Native antigens for optimized antibody production
	Positive controls in ELISA and other antibody assays

Comment:	The tag is located at the C-terminal.
Restrictions:	For Research Use only

Handling

Concentration:	50 μg/mL
Buffer:	25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.
Storage:	-80 °C
Storage Comment:	Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended.

Western Blotting
